## **DQE-on-Demand® Online Hospital Preparedness Training to include Skill Training Videos**

*FISHERS, INDIANA - January 28, 2010/PRESS RELEASE* – The DQE Training Division is proud to introduce an enhancement to the DQE-on-Demand® Hospital Decon Online Training Program. Now included in the On-Demand Library are five new training videos, each running 1 to 3 minutes in length and focusing on specific skills for hospital decon. All five videos are available in the Library, as well throughout the related Decon training modules.

The video topics include:

- Donning PPE
- Doffing PPE
- Configuration and airflow check on the 3M BE10 PAPR
- Decon procedures for semi-ambulatory victims
- Decon procedures for non-ambulatory victims

DQE-On-Demand is a subscription-based, internet training program that employs animation, video and audio to communicate knowledge and demonstrate hospital emergency preparedness skills clearly and effectively. For less than the cost of one session of onsite training a hospital can provide its staff with a learning tool that can be accessed anywhere, anytime, by anyone they chose.

### **About DQE**

Since 1990, DQE has supplied hospitals and other healthcare facilities with the training, equipment, planning, and support to manage all-hazard events. Over 500 hospitals and 10,000 healthcare workers have come to trust DQE for consistent disaster preparedness. Headquartered in Fishers, Indiana, DQE proudly celebrates 20 years of service. For additional information and to learn more about DQE and its family of products, visit [www.dqeready.com](http://www.dqeready.com).
