## SafePaq™ Certified Blood & Virus Protection Kit

INDIANAPOLIS – August 3, 2009/PRESS RELEASE/– Be prepared for an infectious event or pandemic with the SafePaq™. This blood and virus protection kit provides healthcare workers with personal protection that meets OSHA Standards and CDC Guidelines for blood and viral penetration resistance. For mass casualty scenarios where patients are in close quarters, the SafePaq allows staff to protect themselves for hours wearing the same breathable coverall. The SafePaq presents a barrier against a wide range of fluid and viral threats and has applications in many settings, such as hospitals, outpatient surgery centers, clinics, private physician practices, and immediate care centers.

### SafePaq Blood & Virus Protection Kit (HM5911) Contents:

- ◀ One FDA cleared, blood and fluid resistant coverall with attached hood, elastic wrists, and skid resistant integrated boots
- ◀ Two pairs of 5 mil Nitrile exam gloves (2 sizes)
- ◀ One N95 respirator
- ◀ One pair of indirect vent safety glasses

Ten individually wrapped SafePaq kits are packaged in a dispenser box for rapid use. The SafePaq adds to the extensive line of DQE® personal protective equipment, which contains a variety of suit kits designed for safety and maneuverability.
