DQE® Introduces the SafePaq™ Certified Blood & Virus Protection Kit

INDIANAPOLIS – Be prepared for an infectious event or pandemic with the new SafePaq™. This blood and virus protection kit provides healthcare workers with personal protection that meets OSHA Standards and CDC Guidelines for blood and viral penetration resistance. The SafePaq presents a barrier against a wide range of fluid and viral threats and has applications in many settings, such as hospitals, outpatient surgery centers, clinics, private physician practices, and immediate care centers.

SafePaq Blood & Virus Protection Kit (HM5911) Contents:

- Certified blood and viral protective coverall with attached hood, elastic wrists, and skid resistant integrated boots
- Two pairs of nitrile exam gloves (2 sizes)
- N95 respirator
- Safety glasses

Ten individually wrapped SafePaq kits are packaged in a dispenser box for rapid use. The SafePaq adds to the breadth of the DQE line of Personal Protective Equipment, which contains a variety of suit kits designed for safety and maneuverability.

DQE, Inc. manufactures and distributes emergency preparedness and response equipment for hospital, first responder, and industrial emergency response use. Headquartered in Indianapolis, Indiana, DQE proudly celebrates 19 years of service. For additional information and to learn more about DQE and its family of products, visit www.dqeready.com.
